

-MI100 HIDDEN LAKE / SNOWSHOEING-

Dare to discover the charm of the Fuegian winter by hiking with snowshoes. It will be a unique experience in a landscape of pristine nature, so get your camera ready for the photos!

We will leave Ushuaia heading northeast through the mountain range area with beautiful views of inland valleys, mountain ranges and glaciers valleys. We will also see the winter sports and activities centers as we pass by.

Arriving at the Garibaldi pass located at 430 m above sea level, we will make a stop on the way to equip ourselves with snowshoes and poles and start our hike with an estimated duration of 1 ½ hour. It will be the ideal moment to experience the mountainous landscape covered with native forest to the fullest.

After the hike, we will go to the Escondido and Fagnano Lake viewpoint to appreciate the panoramic view from the top.

On the way back along the same route, we will stop at a winter center. There will be free time to enjoy an optional lunch as well as to hire an additional winter activity.
