MI101 ADVENTURE IN THE SNOW (EMERALD LAGOON)

If you love hiking and physical activity, we propose the "Snow Adventure". This excursion invites you to discover in a more active way the magical landscape of Tierra del Fuego during the winter season.

You will go snowshoeing through a scenery of great natural beauty while you leave your footprint on the path that will remain under a white blanket after a new snowfall. And if you are looking for unique views for photos and selfies, the "Adventure in the Snow" is ideal because there will be plenty of snow!

We will start the excursion with a transfer from Ushuaia to kilometer 3040 of national route number three. Once there, we will equip ourselves with snowshoes and poles to start our 2 ½ hour hike.

During the ascent we will make stops to appreciate and interpret the landscape of wide valleys, mountain ranges, frozen rivers, and beech / native forests. The natural scenery will reach its maximum splendor arriving at the foot of the Esmeralda Lagoon.

After a well-deserved rest in the place, with hot drinks and a snack in between, we will begin the descent to the starting point and later transfer to the city.

Total distance to travel by bus: 50 kilometers.
